

General Electric MS5001N Gas Turbine Generator Packages

Quantity Available: 6

Gas Turbine Specifications

Manufacturer: General Electric

Model: MS5001N

Power Rating (kW): 19,550(Base) -
22,880(Peak)

Fuel Configuration: Natural Gas / Fuel Oil

Starting System: GE Electric Motor 400 HP

Average Operating Hours: 14,000 Lifetime

Average Number of Starts: 3500 Lifetime

Acoustic Enclosures: Yes

OEM Manuals & Drawings Included

Year: 1971

Generator Specifications

Manufacturer: General Electric

Model: 161X684

Hertz: 60

KVA: 23,000(Base) - 26,200(Peak)

Power Factor: 0.85

Volts: 13,800

Six (6) GE Gas Turbine Generators – AFT View

- Major Maintenance Completed in Mid-1990's
- New Exhaust Plenum & Ductwork Completed in Mid-1990's
- Original GE Speedtronic Mark I Controls Included
- Cable & Wiring Diagrams Included
- P&ID & OEM Operations & Maintenance Manuals Included
- High Voltage Buss & Transformers Available
- Operation & Maintenance History Available
- Operable Condition
- Fluids Drained July 2013
- Sold as "Loaded on Buyers Transport" at Original Installation Site
- Installed in Upstate South Carolina
